# Annual Village Viking Festival – BOYS 5/2/26 1-4PM

## Overview

### Step into the Saga: Village Viking Festival 2026

Join us May 1–3, 2026, at the Great Geauga County Fairgrounds in Burton, Ohio, for the next chapter of the Village Viking Festival — a living, breathing tribute to Norse history and culture. Relive the excitement of last year’s epic celebration, where Viking reenactors clashed in thrilling combat, axe-throwing challenges tested your aim, and a fully functional Viking village and longship brought the past to life. [Village Viking Fest+2](#)[Village Viking Fest+2](#)

Whether you’re a history lover, a family seeking adventure, or simply curious about the Viking way of life, 2026 promises:

- Authentic Norse reenactments — Watch warriors in action, displaying traditional tactics and strength [Village Viking Fest](#)
- Norse craftsmanship & marketplace — Shop handcrafted wares from talented artisans [Village Viking Fest](#)
- Interactive demonstrations — From blacksmithing to daily Viking life, learn and engage [Village Viking Fest](#)

Last year’s festival was a roaring success — bigger, more immersive, and full of educational energy. As one organizer put it, the goal is to provide “a living educational experience with real-world skills that allow the youth of today to experience life of another era.”

Tickets:

- Adults: ~\$15 [Village Viking Fest+1](#)
- Children (5–12): ~\$7 [Village Viking Fest](#)

## LIBRARY - BOYS

[Pocket Monster Explorers](#) - Saturday, May 23, 3:00pm–4:30pm [Main](#)

Join our beginner's Pokémon Club to learn how to play this popular trading card game. Learn the rules, play against opponents, and try to catch them all! Please do not bring your own cards, all materials will be supplied. For tweens... **Registration opens in 18 days (April 25 at 3:00pm)**

[S.T.E.M. Night](#) - Thursday, May 28, 6:00pm–7:00pm [Newport](#)

Get ready to build, test, and explore at S.T.E.M. Night! Tweens will become young engineers as they design and launch cup rockets, build their own catapults, and experiment with Snap Circuits. Join us for a hands-on evening full... Registration opens in 23 days (April 30 at 6:00pm)

- **Must be booked through a school or organization**
- We require 1 adult chaperone for every 5 clients/students.

## Cost & Payment

\$11 per person (all ages)

Up to 1 attendant per person free

# OTHER ACTIVITIES TO DO TO FIGHT BOREDOM

## Nature Scavenger Hunt Riddles

- Run along with all your power and bring back a pretty flower.
- One, two, three, four we all adore a good luck clover.
- Now don't squirm, but you should find a worm.
- While you have it on your mind, go and see how many feathers you can find.
- Go to a tree and inspect the bark, look real close and bring an insect back to the park.
- While you're walking it would be good if you could find something that is made of wood.
- Something square could be found, but instead, bring back round.
- This is a lot of fun and before you're done, in your sack should be something black.
- Now don't get hurt but you need to find some dirt.
- When it's wet it looks like glass, but it's okay to bring back dry grass.
- Big or small, flat or round, look on the ground for some rocks to be found.
- If it's large or if it's tiny, it doesn't matter as long as it's shiny.
- The pile is thick but if you look real hard you will find a small stick.
- Exploring nature can be fun, bring back something that grows in the sun.
- Look above your head and see if you can find something red.
- By now you probably have a lot to carry, but you should still have room to bring back a berry.
- Look near the tree where the squirrels play and pick up a nut from their buffet.
- Let's see what you can find that starts with a "D".
- Without any stress, bring back something beginning with "S".
- Look at every angle for something that's shaped like a triangle.
- Sometimes an insect will lose its wing so bring one back if you can find such a thing.
- Look on a log and find a frog.
- Birds of plenty you will see, but a bird of red you might find in a tree.
- Now take a break and go find a lake.
- Look for a scene where you can find something green.

# Unicorn Poop Bark

## Ingredients

- White chocolate wafers
- Food coloring
- Colored & star sprinkles

## Instructions

1. Melt the chocolate according to the directions on the package
2. Evenly distribute the chocolate into three separate dishes
3. Add 1-2 drops of food coloring and stir. Add additional drops until you get your desired color
4. Pour each color chocolate on to waxed paper - you will want to pour them separately on the sheet in a triangle (2 of the colors next to each other and one above the other two) and then using a spatula, swirl the colors together - don't over swirl them or it will just turn into a dark mush of a color)
5. Sprinkle the sprinkles on top and let cool completely (you can stick in the refrigerator for a few minutes to help it set faster, but don't leave in there too long or it could affect the color)
6. Break up the bark into pieces and serve

# DIY SOAP POPS

You need:

- Melt and pour clear soap
- Flower petals
- Ice lolly mould
- Pop sticks
- Essential Oils
- Pink food colouring
- Retractable knife

Step one:

Cut the soap into small chunks. Estimate how much you need by placing the small pieces into the moulds. You can always add more later though. Place in a microwave safe bowl and melt on a high heat for around 30-45 seconds at a time. Stir the soap in between heatings.

Step two:

Once the soap is completely melted drop in 10-15 drops of the essential oil and about a teaspoon of pink food colouring. Mix both of these in well.

Step three:

Place your lolly mould onto a plate just in case it falls over. Sprinkle in the flower petals. Don't push them down to fill the mould – let the petals sit loosely on top of each other.

Step four:

By this point the soap should be starting to harden around the edge. This means it has cooled enough to keep most of the pigment in the flower petals. Pour the soap into the mould. If you need to you can stop, add more petals and continue to pour. After a few minutes the soap will start to set. Push the lollipop stick into the middle.

Step five:

Leave the soap to set for around 6 hours minimum. If you're unsure if they have set leave overnight to be certain. Carefully push the knife in between the soap and the mould. You should see the air begin to separate them. Squeeze the sides of the mould together to encourage the air to the bottom of the mould. Repeat this step on the other side and pull on the lollipop stick to remove the soap from the mould. Don't worry of the knife has created a dent in the soap. You can rub it out with some water.

Step six:

Cut the edge of the soap neatly around the stick and your soap pop is ready. Wrap up in cellophane and ribbon and label to make sure the recipient know's it's not edible. There's nothing romantic about eating soap!
